

JAPS SHY ON TAXES

MAUI, July 27.—Judging by the enthusiasm exhibited at the different precinct club meetings recently, Republicanism is as popular as ever on Maui. In fact Republican politicians state that they do not feel at all "shaky" as to the result of the November election.

The three districts of Makawao, Lahaina and Hana are Republican, Wailuku has a Home Rule-Democratic majority, and Molokai is doubtful—about evenly divided.

The following are the officers recently elected by some of the prominent Republican precinct clubs:

At Wailuku, C. B. Wells was chosen as president; S. E. Kalua, 1st vice president; W. F. Crockett, 2nd vice president; George Schneider, secretary; A. Garcia, assistant secretary; C. D. Lufkin, treasurer; Edmund H. Hart, David Crowell, Moses Kaahimahu, judges of election; and H. A. Wadsworth, S. E. Keilinoi, W. E. Bal, W. T. Robinson and D. H. Davis, executive committee.

There were about 75 votes cast.

At Hana, the officers chosen for the ensuing two years were the following: Hon. W. P. Hahn, president; H. Bush, 1st vice president; S. M. Walehua, 2nd vice president; Geo. Opiopio, secretary; F. Wittrock, treasurer; Solomon Haikau, Imi, Geo. Watt, judges of election; and N. Omsted, Kauko, J. H. S. Kalei, Halli, and W. P. Hahn, executive committee. One hundred and nine members of the club participated in the voting.

At Lahaina, 185 Republicans elected the following club officers: Rev. S. Kapa, president; Hon. Philip Pail, 1st vice president; Chas. B. Cockett, 2nd vice president; Wm. Kaluakini, secretary; Wm. Henning, treasurer; D. K. Kalo, Kaloalelo, Henry Dickinson and Kaloalelo, judges of election; Wm. Henning, Ed. Walehola, Chas. K. Farden, C. R. Lindsay and Geo. H. Dunn, executive committee.

On Saturday evening at the Hamakua native church the Precinct 10th Republican Club (Hamakua and Paila) elected the following officers: H. A. Haidwin, president; Hon. S. E. Kalamia, 1st vice president; Chas. C. Krumhaar, 2nd vice president; Thos. M. Church, secretary; P. N. Kahokuoluna, assistant secretary; Enos Vincent, treasurer; John Kallio, E. M. Feltner, F. A. Alexander, judges of election; and D. C. Lindsay, Dr. W. F. McConkey, Hon. John Kallio, Nelson Kalua, and Enos Vincent, executive committee.

Saturday afternoon, the 9th Precinct Republican Club (Kula and Makawao) met at Makawao Post Office and elected the following officers: F. W. Hardy, president; Benj. Manonoa, 1st vice president; Isaac Wallace, 2nd vice president; Antonio P. Tavares, secretary; Edgar Morton, treasurer; D. K. Kaloalelo, J. Vincent and A. N. Fernandez, judges of election; and David Morton, A. E. Carter, A. N. Fernandez, H. K. Naniho, and I. Wallace, executive committee.

PASTOR INSTALLED.

Last Sunday morning, Rev. B. V. Bazata was installed as pastor of the Paila Foreign church. The installation services consisted of the reading of the scriptures by Rev. Mr. Santos, a prayer by Rev. John Kallio, sermon by Rev. Doremus Scudder of Honolulu, and address to the church and the extending of the right hand of fellowship to the new pastor by Rev. R. B. Dodge of Wailuku. Mr. Dodge spoke with much feeling concerning the retiring pastor or pastor emeritus, Rev. Dr. E. G. Beckwith.

The music was unusually fine. Mrs. Hare, Mrs. Nichol, Miss Reba Hanamaki, Mr. Murdoch and Mr. Lindsay singing in the choir and Mrs. H. A. Baldwin acting as organist. There was a large congregation present.

CRATER ITEMS.

Robert K. Bonine of New York, the representative of the Edison Co., through the courtesy of W. O. Alken of Makawao, spent last Friday and Saturday on Haleakala and in the crater, returning to Olinda Saturday evening. He made a complete tour of the crater and took two revolving pictures of it from a cone near the sandy entrance. He took many views of the scenery in the vicinity of Haleakala and stated that Makawao excelled all the places on the islands visited by him. In the crater party, besides Mr. Bonine, were W. O. Alken and Prof. Sweeney, the Honolulu entomologist.

On Monday, a party consisting of Miss Gilmore, Miss Heeneey, Miss Irene Alken, Miss Rose Peck, Dr. G. S. Alken, E. S. Dowdle of Oakland, Frank Lufkin, Lethian Williams and others departed from Makawao on a camping tour of ten days around East Maui by the way of the crater of Haleakala.

On Sunday, J. A. Browncker and E. E. Sommermeier, two professors of geology from the Columbus University of Ohio, visited the crater.

On Tuesday, the two Keldal brothers from Baltimore made a trip to the "palace of the sun."

POLL TAX SUITS.

On Tuesday 17 Japanese residents of Kula were brought before the Makawao district court to be sued for their poll taxes. Rather than stand out of them paid their tax dues.

Tax Assessor A. F. Tavares of Makawao is having much trouble in collecting poll taxes from the 200 Japanese poll tax payers of the Kula section. Last year but 65 per cent paid their taxes. The remainder having no property could not be coerced.

This year even the well-to-do farmers, seeing that so many evaded the payment of last year's taxes, took courage to do likewise. Hence the suits instituted on Tuesday.

Under U. S. law poll taxes can not be collected from persons not possessing property. Under old Hawaiian law such persons would be compelled if physically able to work out the 5-dollar tax on the public roads.

HAWAIIAN ENGINEERS.

Among the passengers who left by the steamer Rubenshan from Kona last Sunday for San Francisco last Tuesday were Mr. and Mrs. H. W. Malcom, H. W. Miller, Edgar Morton, Jr. and

ELEVATOR FATALITY

(From Monday's Advertiser.)

Fred. Williams, the porter of the Alexander Young Hotel, was the victim of a fatal accident yesterday morning, meeting instant death in a plunge down the open elevator shaft. The accident was caused through the fault of the victim himself, the coroner's jury, which investigated the affair soon after it had happened, attaching no blame to the hotel management in its finding.

Williams was attending to his duties on the second floor in the makai end of the big hotel and had dismissed his assistant about half past ten o'clock, saying that he was about to take the elevator back to the basement. Evidently he had changed his mind about riding down in the elevator, and had decided to send the cage down empty, thus saving himself the walk back, which is often done by the elevator runners, the operator starting the cage and then stepping off, relying on the automatic stop in the basement.

Starting the machinery, Williams stepped out, but was too slow. The descending cage struck him and then passed down. Then, in some manner, he pitched back through the doorway, striking the descending cage head-on, and becoming jammed between the edge of the cage and the side of the shaft. The drop was only about twelve feet and there was a question whether the injuries which caused his death were received in the fall or before it.

The body was taken at once to the morgue, and a jury empaneled by Sheriff Brown, as coroner, to hold the necessary inquest. Those who served were: Horace N. Crabbe, P. Gleason, J. D. Castro, R. T. Browning, J. V. Geary and Jack H. Myatt.

The testimony of Charles Ziegenfuss, elevator boy, Peter Alameda, the assistant porter, Alexander Young and Dr. McDonald was taken, after which the following verdict was rendered: "That we find that the deceased, Fred. Williams, was a native of America and aged about 56 years; that he came to his death on the 29th day of July, A. D. 1936, at Honolulu, County of Oahu, Territory of Hawaii, by falling down the elevator shaft of the Alexander Young Hotel, striking the top of the elevator cage, causing fracture of the skull and instant death."

After the inquest the body was removed to Henry H. Williams' undertaking parlors, from which the funeral will be held at 10 o'clock this morning.

According to an acquaintance, the deceased was 52 years old, having come to Honolulu a few months ago, entering the employ of the Young Hotel at the beginning of the year. He had formerly been employed as baggage porter in the steamers Sonoma and Alameda, before which he had served in the steamer Australia, being with that vessel when it was captured by the Japanese during the recent war. He was also a Spanish War Veteran, serving along with his son in the New York Regiment.

His son, who is married and living in New York, is his only surviving relative.

Since coming to Honolulu the deceased had made a large number of friends and had been well liked by his fellow employees at the Young.

BASEBALL AT LAHAINA

LAHAINA, July 28.—Ilmas and La Paloma had a game of ball Sunday at Kilohana Park. The game was a hot one from start to finish, the La Palomas coming out victorious 4 to 2. The greatest excitement prevailed at each and every inning. There will be a match game Sunday between the two above mentioned teams. The Ilmas are on their metal as this makes two games in succession that they have lost.

The last-mentioned, who is the son of Deputy Sheriff Morton of Makawao, is going to San Francisco to attend the Polytechnic High School to learn mechanical engineering. He is a graduate of Kamehameha School and has worked a year in the Paila machine shops.

This is the second Maui young man to go to this polytechnic school—John Robinson, the son of Henry Robinson of Paila, having recently gone to the Coast by the Sonoma for the same purpose. These Hawaiian boys believe that the present is a mechanical age and that the professions are overcrowded.

NOTES.

Last Saturday night a dancing party took place at Maunaloa Seminary under the auspices of the Makawao Social Club, this being the second dance given by the association. The dancing took place in the large dining hall and the popular Paila string band furnished lively music. There was a large number of young people present and all had the best of times.

E. H. Paris of Honolulu arrived by Saturday's steamer and went to H. A. Baldwin's of Hamakua. Mr. and Mrs. Paris returned to Honolulu by Wednesday's steamer.

John Guild of Alexander & Baldwin came to Maui by the last Claudine and is visiting at D. B. Murdoch's, Paila.

Paila plantation has recently completed a pretty residence at Paila for Head Luna S. Hocking.

Mr. and Mrs. Geo. W. Wilbur of Kailua are enjoying a vacation at the Coast in the cities of Oakland and Los Angeles.

George Henderson, the new manager of the Hygeia Soda & Ice Co. at Kailua, has doubled the company's business recently.

The oil steamer Argyl arrived in Kailua on Sunday.

Weather: Delightful but dry.

OLD MISSIONARY LADY OF HILO PASSES AWAY

HILO, July 27.—With the passing away of Miss Harriet Coan on Monday afternoon at an advanced age, Hilo, and Hawaii generally, lost a firm and true friend. The late Miss Coan was born in Hilo, her father having been Rev. Titus Coan, one of the missionaries of the early days. He came here from New England in the thirties and is affectionately remembered as "Father" Coan all over the islands.

Miss Coan went to the East when a young girl and completed her education there, returning to Hawaii for what she believed her life's work. As an educator she was always sought, and there are very many who will remember her as the gentle and kindly teacher of their youth now passed away.

A year ago Miss Coan was found to be suffering from cancer and an operation was found imperative. From the effects of this she never quite rallied. Up to the end of the term just closed she was a teacher in the Union School, where her services were always valued. Dr. Munson Coan, an older brother, now in New York, and Mrs. Waters, a sister, survive her.

The funeral was held on Tuesday from the residence of Dr. Frances Wetmore. A large gathering of mourners attended.

The will of the late Harriet F. Coan was filed for probate on Wednesday by Carl E. Smith, the sole executor. The document is dated July 5, and the signatures of Miss Bethel of the Hilo Hospital and Miss Sarah Lyman appear for the witnesses.

There are six bequests made in the will, the great bulk of the estate going to Mrs. Sarah C. Waters of New York, a sister of the late Miss Coan. To Mrs. Waters are left 9 shares of Wailuku, 30 shares of Olua, 125 shares of Ewa, 10 of Hilo Electric, 5 of the L. Turner Co., 2 preferred shares of the Realty Syndicate, San Francisco; four-fifths of all cash on hand (about \$200 in all), two lots on Church street, one lot on the makai side of Bridge street and a life estate in the undivided half interest in the Coan homestead.

To Dr. Titus M. Coan, one-fifth of all cash in hand.

A small sum is left the trustees of the Foreign church, and a similarly small sum is left in trust for the upkeep of the Coan cemetery lot.

Raymond C. Coan, a nephew, now at Cornell University, is left the fee simple in the Coan homestead after the expiry of the undivided half interest bequeathed Mrs. Waters. Mrs. Waters is named as residuary legatee.

Following the disposition of the property, Miss Coan gave the most minute details for the conduct of her funeral, even to the number of hacks to be engaged. The situation of her grave is specified, and the executor is directed to have erected an inexpensive tombstone bearing the words: "Harriet F. Coan, 1839-1936. Gone Home."

The entire state of the late Miss Coan figures up to \$10,548, of which \$5000 is cash, about \$6000 represented by real estate and the rest stocks at current prices.

Some surprise was expressed at the distribution of the estate, the Herald says, as many people were under the impression that Miss Coan had intended to leave most of her property to her nephew, Raymond C. Coan, now at Cornell. All this gets is, however, the fee simple of an undivided half in the homestead, and he does not come into this until his aunt's life interest expires.

HILO BOARDING SCHOOL.

The annual catalogue of the Hilo Boarding School for the year 1935-6, its seventeenth year, containing the calendar for 1936-7, contains a brief historical sketch of the institution from the date of its founding by Rev. D. B. Lyman and Rev. Titus Coan in 1836 to the present day.

"The new Hilo Boarding School building was completed September 1, 1935. It has two stories and a basement and was built at a cost of \$20,000. It is an imposing frame building, 228 feet long. The main portion is 51 feet wide and the width of the wings is 32 feet. On the first floor there is a spacious assembly hall, six classrooms, office, library and reading room. Upstairs there is one large dormitory for the younger students, two large teachers' rooms and forty single beds. Each student's room is 10 by 6 feet and contains a clothes locker, iron box and mattress.

"The work on the basement was done by the students. Most of it has a cement floor and contains the wood-polishing department, hospital dispensary, lavatory, play-room and a large dining room, having a seating capacity for over a hundred persons. A kitchen wing at the rear of this affords ample accommodations for the preparation and storing of food.

"There are over sixty boys attending school from different parts of the islands, their ages ranging from seven to thirty-three years. The Boarding School was established primarily for Hawaiians, and they are still in the majority. At present, however, eight nationalities are represented and the boys all live and work together in remarkable harmony."

LAND LAW OPINION.

The opinion of the Attorney General in the matter of allowing filings on village lots and agricultural tracts as proposed for the settlement association is adverse to the plan, the law specifying that an application may be made by one individual for one lot. The opinion in full was received by Sub-Land Agent Williams and is as follows:

"In reply to your request for an opinion as to whether or not you, as Commissioner of Public Lands, have a right to survey and set apart portions of public lands in such a manner that intending settlers under the provisions of Sections 313 to 318 may take up as one holding two lots, one a house lot, and the other an agricultural lot in the immediate vicinity of the house lot, but not actually a part of the same, I would advise you that the statement in your letter in which you said the

attention of this department to lines 1 to 11, Section 316, Revised Laws, and wherein it is provided that applicants may apply for one lot, is a complete answer to your request in this connection.

"Section 313, Revised Laws, provides that you may, with the approval of the Governor, cause to be set apart suitable portions of public lands for the occupation of such persons as may desire to obtain holdings under the 'right of purchase' leases and cash freeholds of the Public Lands Act. Section 313 further provides that such lands shall be selected only from agricultural and pastoral lands and shall be laid out in lots of not over 100 acres in first-class agricultural lands, etc."

"Section 316, Revised Laws, as stated by you, provides that any qualified person who is not an applicant for any other interest in land under the provisions of the land laws, may apply for one of said lots for his own use and benefit, either as a right of purchase lease, or as a cash freehold.

"The words 'one of said lots' mean a compact parcel of ground. A tract of agricultural land, say 25 acres in extent, in conjunction with a two-acre tract not connected therewith, could not by any construction be deemed one lot."

The opinion is signed by Deputy Attorney General Milverton and is approved by E. C. Peters, Attorney General.

BAD EGGS CONVICTED.

Antone Lopez, ten years; Florian Garcia, eight years; Ramon Blas, eight years—such was the sentence passed by Judge Parsons of the Fourth Circuit Court on the three Porto Ricans for their brutal robbery of the Japanese, Ueio, at Olua, last March 10. The trial commenced on Friday last and was finished on Saturday, when the jury brought in a verdict of guilty, and sentence was passed Monday afternoon.

J. U. Smith, who had been appointed to defend, made the best of a very bad case, but the evidence as marshaled by Assistant County Attorney Aluli was altogether too strong. The first two prisoners mentioned broke into Grigo's house at 8 a. m., stole a trunk containing a quantity of clothing and passed it out to the third man, whose sentence as an accessory was the same as the others except that Lopez, the ringleader, got an extra couple of years.

The robbery was, it is alleged, followed by a worse crime, for which Lopez and Garcia are yet to be tried.

BRITISH SCOT FETED.

The members of the Hilo Burns Club were the very enthusiastic hosts of Robert Forbes of Wailakea, and his bride on Saturday evening at the rooms in Spreckels block. The club turned out in full force, and what with merry songs, splendid dancing, speech-making of a particularly high order, and excellent eatables and drinkables, the occasion was made a joyous one.

Mr. and Mrs. Forbes had spent their honeymoon at the Volcano and were captured on their return to town. The big clubroom was filled when they arrived, and there they were formally presented with a marble clock and a dinner set, while Mrs. Forbes was given a special cut-glass set by the members of the club. Forbes, who is eloquent enough when it comes to playing the pipes, was almost lost for words when it was a matter of thanking his friends on behalf of himself and his bride. An impromptu concert followed, speeches of a most congratulatory nature coming between songs.

HIGH SCHOOL BUILDING.

The excavation for the foundation of the new high school building, carried down to the solid rock, a depth of between 6 and 8 feet, and that for the basement, were finished some days ago. Engineer Tom Cook considers it a mistake not to make a full basement under the building, as the expense of excavating would be small, the earth is needed in grading-up and the basement room could be advantageously used.

ITEMS.

Mrs. Albert Horner of Pailua is visiting Mrs. Jarret T. Lewis in this city. She expects to leave soon for California, in company with her two sons, who return to St. Matthew's College at Burlingame.

D. Thannum, foreman of the Herald office, arrived back from a six months' trip to Denmark by the steamer Maui Sunday. He had spent several weeks on Maui adding to his rare collection of shells. In Washington, on the way home, Mr. Thannum conferred with scientists of the Smithsonian Institution.

The gymnasium idea gains in popularity. It is probable that an association of Company D men and others will be formed to put in a bowling alley at the rear of the armory, provide gymnasium apparatus and bathing and swimming facilities in the river rear.

Captain and Mrs. Fitzgerald leave for California by the Hiloan, the captain having been granted a three months' leave of absence. Mrs. Fitzgerald will visit at Eureka, California, her former home, and the captain will probably go to Portland on the Hiloan, returning to Eureka later.

The Hilo Fruit Company at a meeting held Monday decided upon forms of contract for fruit and decided upon \$20 a ton, delivered at the cannery, as the price for pineapples.

The special committee of the Board of Trade appointed to secure data for Capt. Blatter of the U. S. Engineer Corps, concerning the loss to commerce now occasioned by the want of a breakwater, has already got to work. Meetings have been held and a deal of useful information acquired. This will be tabulated and forwarded at an early date.

After several attempts to get in on time, George Lyman became an American citizen last Friday. Judge Parsons is proverbially practical, and it happened on some former occasion that when Lyman or some of his

POTENTIAL PA-U PAR LE

In a recent letter to Secretary Wood of the Promotion Committee, Mrs. Weathered tells of the very favorable impression made upon her by the Pa-U Parade, which she saw here when acting as chaperon for the Oregon girls. This feature of the celebration of George Washington's birthday will occupy a large place in the December number of the new magazine shortly to be issued by Mrs. Weathered, which number is to be devoted to Hawaii and be a regular "Hawaiian Edition."

Speaking of the Pa-U Parade, she says:

"I have seen the Mardi Gras of New Orleans, the 'Yelled Prophets' of St. Louis, the 'Aksarben' at Omaha, and several other yearly parades of this nature—yet never thoroughly enjoyed any so well as I did the Pa-U riders. Now, it is my opinion that you can make this yearly parade, with all its unique attractions, a great drawing card for tourists each February."

"Just imagine what a brilliant spectacle a thousand Pa-U riders would make, with their flowing robes of red, white, blue, yellow, green and purple. The band riding in a golden (?) chariot, dispensing inspiring music, the gorgeously-decorated automobiles and carriages, with many other—no, you would not need any other details. Such as this, well advertised, would take thousands from the Pacific states over there."

THE MISTAKES OF YOUR LIFE.

Do not number among the mistakes of your life that of neglecting to procure a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Some of your family may be suddenly attacked with cramp colic or diarrhoea, which are always prevalent during the warm weather, and immediate relief is then necessary. Get it today, it may save a life. For sale by all Dealers and Druggists, Benson, Smith & Co., Ltd., Agents for Hawaii.

Witnesses were late. Only late by a fraction of a minute, perhaps, but late nevertheless. The newly-made citizen entertained a select company of friends at dinner on the first evening of his citizenship.

R. W. Breckons, United States District Attorney, who is associated with C. M. Le Blond in the defense in the Chinese disinterment and perjury cases, will be back next week to try the cases. Mrs. Breckons and daughter are at the Volcano.

After nine years of travail it is beginning to look as though Hilo is at last to see the beginning of the opening of Bridge street. The plan for the street level has been prepared and Superintendent Holloway has written that he will approve it, so that the work may be said to look in fair shape for a start. This, of course, would bring the street through only as far as Church, and while across Church street another exchange was made some time ago, the plan to continue the extension to the proposed extension of Richardson street is blocked by the property of Don Kanohe, who does not wish to sell, but is willing to exchange for other land. The county has no land to exchange, and has no power to take condemnation proceedings. The Territory does not seem inclined to help the situation, and hence the county is to drop into the vernacular, "up against it."

The road force is now employed reconstructing the roads between Pailua and Onomea. Work has been discontinued on the Rainbow Falls park driveway, the prison gang, who were engaged in this work, having been called off by High Sheriff Henry through Jailer Mahy and put to work grading around the new jail. For this reason the Supervisor is not making very rapid progress with the road in the park.

J. D. Easton returned overland from Mahukona, to which place he went by the last trip of the Kinai on business in the interest of the Hilo Mercantile Co. He reports business conditions all along as vastly improved over those of a year or two ago and better than for the previous month. Hilo is hampered, Mr. Easton states, by the imperfect transportation methods so far existing.

Mr. and Mrs. W. H. Smith arrived in Hilo by the Kinai Wednesday. Mr. Smith returns to Honolulu this week, where he expects to locate and enter into the practice of his profession, that of corporation lawyer. Mrs. Smith will remain in Hilo for a time visiting relatives. Mr. Smith was formerly editor of the Hilo Tribune and for the past two years has been in New York doing post-graduate work in the law school of Columbia University.

A luau was given Saturday evening by the Hilo Branch of the Hawaiian Women's Club at the home of Mrs. Christina Brown. Those who took part in the fifth of July performance at the armory were present dressed in costume. The luau was one of the finest given in Hilo for some time and was much enjoyed.

A petition to the County Board of Supervisors asks for the removal of G. P. Kamao, road supervisor for South Kona, and for the appointment of J. Kaelamakule, the present supervisor of North Kona, the latter to have supervision of both districts. The removal is asked for on general charges of incompetency. The petition bears five signatures.

The following have engaged passage in the Hiloan for the Coast: Mr. and Mrs. H. Deason, Olive Deason, Sheldon Deason, Capt. Fitzgerald and wife, Mrs. Horner and two children, Mr. and Mrs. J. Hutchinson, Miss Lucas, Raymond Lucas, two sons of J. K. Fallon, W. K. Andrews and family.

The infant child of Mr. and Mrs. J. E. Metcalfe of Pailua died on Sunday July 27.

A kind of omph, or omphatic, is reported as being prevalent among the horses at the coast and over as far as Mahukona.

WEIRD TALE OF THE SEA

A Japanese stowaway on the board the ship Atlas was thrown overboard one midnight while that vessel was on the voyage from Yokohama to Honolulu which terminated on July 13. Whether the man was dead or alive when thus committed to the deep is a question thus far undecided, though the actors in the grim ceremony no doubt know well what the fact is. There is some weight of evidence that the stowaway was still in agony from injuries when by command of the boat-swain he was tossed into the ocean.

This weird tale of the sea, so far as it has been told, came out in an investigation begun yesterday by U. S. Commissioner Mailing. The basis of the revelations lies in proceedings against Captain Amberman, master of the Atlas, for failure to enter in his log the death of a person on board. According to the witness he did not make the entry because he was ignorant of the occurrence, for both the presence and the fate of the stowaway were concealed by the Japanese crew. After the vessel's arrival the facts of the seeming tragedy leaked out, causing the action against the master.

Haseu, one of the seamen, said that about 8 o'clock on the evening of July 11 a report was made to the chief boat-swain that a stowaway had fallen through a hatch and been injured. He was writhing in pain down in the hold, but none of the watch ventured to go to his assistance. The boat-swain gave an order to throw him overboard.

For himself Haseu said in evidence he could not obey such an order, the stowaway being "a human being." He carried a bucket of water to the sufferer, intending to give him some relief. When Haseu went off watch at 11 o'clock the boat-swain's order was carried out. Three of the Japs hoisted the injured man, or the corpse whichever it then was, out of the hold with ropes fastened about his body. "They threw it overboard on the port side, in front of the foremast rigging," the witness said.

Answering Mr. Mailing he said the man was dead when thrown overboard and, to another question, that he knew he was dead because two of the men had told him so.

Getting wind of the coming investigation the boat-swain disappeared and a bench warrant was issued yesterday for his arrest.

A theory of the case is that the three or four sailors who alone knew the stowaway was in the ship were in collusion with him for pay, and that when he was injured they feared detection owing to the impossibility of treating him properly and at the same time keeping the secret. Hence, to protect themselves against punishment for a quite venial offense—this awful theory—they committed a most dreadful crime.

Still more startling is the suggestion that the stowaway had money and that he was put out of the way to get hold of the money. In that case the victim's fall into the hold would not have been accidental.

However, the investigation is not over yet.

VISITORS TO VOLCANO.

VOLCANO HOUSE, July 27.—Following is a list of guests at the Volcano House from July 13 to 26:

Irwin Scott, B. C. Kennedy, Mr. and Mrs. B. H. Baird, Miss Ellen Gay, Mr. and Mrs. Robert Forbes, John Deter, Dr. C. L. Stow, M. Schorling, H. H. Simon, Dottie Shaw, H. O. Maltby, J. S. Napier, J. B. Lyman, Miss Florence Campbell, Julia Campbell, Zelle Rogers, Miss E. M. Mahy, Maria Piliot, Louise Lucas, Margaret Williams, Mary Kaul, Gertrude Williford, Mrs. F. W. Mahy, A. James, Elda A. B. Proffert, W. H. C. Campbell, D. S. Bowman, J. W. Smith, Hilo. Miss Anna M. Whitney, Miss Edna M. Craig, Stanley C. Kennedy, Ed. D. Tenney, S. A. Walker, Mr. M. E. Lawton, M. Houghtaling, W. M. Giffard, R. C. L. Perkins, Geo. F. Renton, Jr., J. Lewis Renton, Elsie Smith, Hilda Smith, R. McCortison, Mr. and Mrs. A. Haneberg, Miss Nellie McLean, Miss Mollie Grace, J. J. Meyer, Annie Meyer, Honolulu.

T. C. Wills and daughter, Pahala; C. E. Singletary, Kohala; Miss Eva L. Heuser, Maui; W. H. Hissman, Olua.

Amy Graves, Pailua, Cal.; Miss Bertha Boates, Berkeley, Cal.; Mr. and Mrs. Lem. L. Roos, Mr. and Mrs. N. C. Grider, San Francisco; E. E. Somerell, J. H. Bownorker, Columbus, O.; Fred W. Dickson, S. Royall, C.; H. Silbernagel, L. Schmidt, Germany.

A BROKEN DOWN SYSTEM.

This is a condition (or disease) to which doctors give many names, but which few of them really understand. It is simply weakness—broken-down, as it were, of the vital forces that sustain the system. No matter what may be its causes (for they are almost numberless), its symptoms are much the same; more prominent being sleeplessness, sense of prostration or weariness, depression of spirits and want of energy for all the ordinary affairs of life. Now, what alone is absolutely essential in all such cases is INCREASED VITALITY—VIGOR—VITAL STRENGTH AND ENERGY to prove that as night succeeds the day this may throw off these morbid feelings, and experience be more certainly secured by a course of the celebrated life-reviving THERAPY.

THERAPY NO. 1

than by any other known combination. So early as it is taken in accordance with the printed directions accompanying it, will the shattered health be restored, the EXPIRING LAMP OF LIFE
